Project Summary

Project Title	Description
Sulpicio De Guzman Jr. Club Chairman/Co-Head Brothers in Golf (BIG) Club	The golf club holds monthly tournaments, usually held on the 3rd Sunday of the month, with 30-50 players. They are ultimately looking for a website that holds all the basic information about the tournament and individual player stats. This includes the tournament results and also their rankings in overall season points. Players are not able to see their season stats such as past scores or average placement unless digging through their e-mail box or text messages. BIG would also like this website to be somewhere where players could check-in their availability for future tournaments or serve as something to help make the organizing of the tournaments easier.
